

PRODUCT SHEET

BODY WASH

1/2

Soft pre-moistened bathing products

The Swash[®] bathing products are especially designed to provide a daily rinse-free full body wash for care recipients with impaired mobility and the need of assisted bathing due to their health condition.

Swash[®] uses a system of wash gloves and wipes soaked in a special lotion which cleans and nourishes the skin. One package of 8 Swash[®] gloves and wipes is sufficient for one full body wash. Each section of the body is washed with a separate wash glove or wipe, then discarded with no need to rinse and/or dry the skin.

Characteristics of the Swash[®] products:

• **Hypoallergenic lotion**, available with or without perfume

• **Free** from parabens and formaldehyde releasers

• **Dermatologically tested**

• Products can be **warmed up**

• **Nourishing ingredients** i.e. Vitamin E and Glycerin

• **pH skin-neutral** lotion

• **Nordic ecolabel** license number 5090 0291

• Made in **Holland** using a **fully automated production process**

• Production in a **clean room** environment guarantees high product quality

TENCEL[®]

The cloth of the Swash[®] bathing products are, among other materials made from the wood fibre TENCEL[®]. This natural fibre is characterised by its purity, softness and absorbency. TENCEL[®] is produced in an environmentally friendly manner. The innovative production process that recycles both energy and water, ensures that the environment is burdened as little as possible.

Product overview:

Swash® bathing

The Swash® products contain a balanced amount of lotion for optimal hygiene of the skin. The lotion thoroughly cleans and simultaneously nourishes the skin with caring ingredients, such as Vitamin E, Glycerin, Caprylyl Glycol and Glyceryl Caprylate. Swash® is produced with low-linting cloth. The combination of the fibres, TENCEL® and polyester, ensures an optimal quality of the cloth.

Wipes

The wipes are made of soft cloth based on cross-lapped Needle punch (non-woven). Swash® Platinum Wipes are made of heavyweight cloth and contain a heat retaining pad. This ensures that after they have been heated in the microwave the wipes retain the heat longer. Swash® Gold Wipes has a medium weight cloth which provides a gentle and pleasant bath for people with a vulnerable skin.

Gloves

The gloves are made of firm, soft cloth based on cross-lapped Spunlace (non-woven) that has a light relief (embossing), which gives a pleasant feeling on the skin. The gloves are produced using an ultrasonic welding technique, which ensures a sufficiently strong glove is maintained. The glove makes it easier to clean difficult to reach body parts, such as skin folds and toes. The glove is suitable for self-cleaning by care recipients with a weak grip.

| ITEM NUMBER | PRODUCT NAME | NUMBER OF PACKAGES PER BOX |
|-------------|--|----------------------------|
| A04028-8 | Swash® Gold Wipes 8-pack Fragrance free | 44 |

| A04070-8 | Swash® Gold Gloves 8-pack Fragrance free | 40 |
| B04070-8 | Swash® Gold Gloves 8-pack Fragranced | 40 |

SWASH SHAMPOO CAP

| | | |
|----------|--------------------|----|
| D04077-1 | Swash® Shampoo Cap | 40 |
|----------|--------------------|----|

A single-use bathing cap coated with a special hair care lotion on the inner side. The lotion gently cleans and conditions the hair and does not have to be rinsed off. Guarantees a high level of quality and consistency of care. Ensures a reduction in physical strain because of the cut back of the number of actions during the hair wash.
