

ChloraPrep™ SEPP™ 0.67ml cutaneous solution

Licensed, single-use, sterile, aseptic non-touch technique™ (ANTT), latex-free, skin antiseptics system – 2% chlorhexidine gluconate w/v and 70% isopropyl alcohol v/v

Pinch

Hold the applicator between thumb and forefinger, being careful not to touch the tip. Pinch the sides of the applicator once (*in the middle of the ampoule*) until you feel the inner ampoule break.

Do not keep 'pinching'. Do not bend or snap the applicator.

Apply

Let the solution flow naturally through the non-linting tip.

Gently press the applicator against the skin and **apply using repeated up-and-down, back-and-forth strokes for at least 30 seconds.**

Dry

Leave the area to **air-dry completely** before proceeding. Do not blot or wipe away.

Discard the applicator after a single use.

SEPP 0.67 ml

Coverage area: 5 cm x 8 cm

Order code:
27449

For procedures such as:

- Peripheral cannulation
- Surgical pin site cleaning
- Insertion site maintenance
- Subcutaneous device insertions

Prescribing Information:

ChloroPrep[®] & ChloroPrep with Tint 2% chlorhexidine gluconate w/v / 70% isopropyl alcohol v/v cutaneous solution. Refer to the Summary of Product Characteristics before prescribing. **Presentation:** ChloroPrep – each applicator contains 0.67 mL, 1.5 mL, 3 mL, 10.5 mL or 26 mL of 20 mg/mL chlorhexidine & 0.70 mL/mL isopropyl alcohol; ChloroPrep with Tint – each applicator contains 3 mL, 10.5 mL or 26 mL of 20 mg/mL chlorhexidine & 0.70 mL/mL isopropyl alcohol. **Indication:** Disinfection of skin prior to invasive medical procedures. **Dosage & administration:** Applicator volume dependent on invasive procedure being undertaken. May be used for all age groups and patient populations. Use with care in newborn babies and those born prematurely. Applicator squeezed to break ampoule and release antiseptic solution onto sponge. Solution applied by gently pressing sponge against skin and moving back and forth for 30 seconds. The area covered should be allowed to air dry. **Contra-indications:** Patients with known hypersensitivity to ChloroPrep or ChloroPrep with Tint or any of its components, especially those with a history of possible Chlorhexidine-related allergic reactions. **Warnings and precautions:** Solution is flammable. Do not use with ignition sources until dry. Do not use in excessive quantities, allow to pool in patient skin folds or drip on materials in contact with patient skin. Remove any soaked materials before proceeding with the intervention. Ensure no excess product is present prior to application of occlusive dressing. For external use only on intact skin, do not use on open skin wounds or broken or damaged skin. Over-vigorous use on fragile or sensitive skin or repeated use may lead to local skin reactions. Avoid prolonged skin contact. Avoid contact with eyes, mucous membranes, middle ear and neural tissue. Chlorhexidine may induce hypersensitivity, including generalised allergic reactions and anaphylactic shock. May cause chemical burns in neonates, with a higher risk in preterm infants and within the first 2 weeks of life.

Pregnancy & lactation: Although no studies have been conducted, no effects are anticipated as systemic exposure is negligible. **Undesirable effects:** Very rare; allergic or irritation skin reactions to chlorhexidine, isopropyl alcohol or sunset yellow (E110, present in ChloroPrep with Tint only), including erythema, rash, pruritus and blisters or application site vesicles, other local symptoms have included skin burning sensation, pain and inflammation. Frequency not known; hypersensitivity including anaphylactic shock, dermatitis, eczema, urticaria, chemical burns in neonates. Discontinue use at the first sign of local skin reaction. **Per applicator costs (ex VAT):** ChloroPrep: 0.67ml (SEPP) - UK £0.30, Ireland €0.39; 1.5ml (FREPP) - UK £0.55, Ireland €0.64; 1.5ml – UK £0.78, Ireland €0.94; 3ml – UK £0.85, Ireland €1.06; 10.5ml - UK £2.92, Ireland €3.79; 26ml – UK £6.50, Ireland €7.96. ChloroPrep with Tint: 3ml – UK £0.89, Ireland €1.09; 10.5ml – UK £3.07, Ireland €3.88; 26ml - UK £6.83, Ireland €8.19. **Legal category:** GSL **Marketing Authorisation Numbers:** ChloroPrep, (UK. PL31760-0001; Ireland: PA1435/001/001). **Marketing Authorisation Holder:** CareFusion UK 244 Ltd, The Crescent, Jays Close, Basingstoke, Hampshire, RG22 4BS. **Date of Preparation:** December 2016.

Reporting suspected adverse reactions is important to monitor the benefit/risk balance of the medicinal product. Reporting forms and information can be found at www.mhra.gov.uk/yellowcard. Adverse events should also be reported to CareFusion Freephone number. For UK: 0800 0437 546 or email CareFusionGB@professionalinformation.co.uk. For Ireland: 01 404 8383 or email CareFusionIE@professionalinformation.co.uk.
